

Blue Note Tour Series

9V/DC ONLY.
Battery available

GUITAR OUTPUT ↓ GUITAR INPUT

VOLUME - Controls the overall Output level

TONE - Controls the top end and bite. Works in conjunction with the FAT control

GAIN - Adds slight gain and compression for better feel.

FAT - Controls the low mids and overall thickness. Works in conjunction with the treble control

ON/OFF - True Bypass switch

The Blue Note Tour Series is designed to achieve low gain blues and jazz tones. We feel this is the most transparent OD on the market with perfect EQ. We designed this pedal to not be heard unless you want it to. Match the volume and EQ to unity and the pedal will disappear. Add just a little gain and your dynamics will increase along with the feel. The Tone and Fat controls are interactive so experiment with combinations.

Warranty

Rockett Pedals LLC. will repair or replace, at its discretion, defective workmanship or materials on all new Rockett Pedals products directly or through; the selling dealer or an authorized service technician, for one year from the date of purchase at no cost to the original purchaser. Repair and replacement parts installed will be warranted for the unexpired portion of the original warranty term.

Before sending product in for repair please contact us at chris@rockettpedals.com or jay@rockettpedals.com. Or call +1 (720) 936-8623. This warranty does not cover shipping costs, product appearance or damages caused by accident, abuse, misuse or alteration.

A dated sales slip or order number (issued by a tech, dealer or Rockett Pedals) must accompany a product being returned for warranty service. Repairs without a return authorization number will be refused. Please allow 4 weeks for warranty service. For more information please contact Rockett Pedals www.rockettpedals.com or +1 (720) 936-8623. No other warranty is expressed or implied.
