### Controls

- **Gain Knob:** Turn to the right to increase gain, to the left to decrease gain.
- **Treble Knob:** Turn to the right to increase treble, to the left to decrease treble.
- **Output Knob:** Turn to the right to increase output, to the left to decrease output.

### Settings

The Archer ikon is sort of a 2 in 1 pedal. It can be used as just a clean boost by turning the gain all the way down. As you introduce gain it will attenuate the clean signal, but there is a magical blend in-between that you will find. Please experiment!!
